EDUCATION

BSc in Botany, *National University Bangladesh*
2018 – 2022 | Dhaka

Professional Experience

Star Computer Systems Limited, Full Stack Developer

May 2026 – Present | Dhaka

- Developed full-stack web applications using ASP.NET Core, C#, Angular, TypeScript, and SQL Server.
- Created and integrated RESTful APIs, implemented CRUD operations, validation, and Entity Framework Core data access.
- Built responsive Angular interfaces with Reactive Forms, API integration, reusable components, and client-side validation.
- Worked with Git, debugging, authentication/authorization, and database relationships to deliver maintainable application features.

PROFESSIONAL TRAINING

Cross Platform Apps using ASP.NET, Angular & React,

IsDB-BISEW IT Scholarship Programme

Sep 2025 – May 2026 | Dhaka

Projects

POS Management System [🔗](#),

Node.js · Express.js · EJS · WebSockets · JavaScript

Engineered an E-Commerce and POS platform with inventory control, checkout, order tracking, admin workflows, and real-time WebSocket updates.

EduSphere - SaaS Academic Management System [🔗](#), *React,*

TypeScript, Tailwind CSS, ASP.NET Core 8, EF Core, PostgreSQL

A full-stack SaaS academic platform (React, Tailwind) with role based dashboards for Admins, Teachers, and Students. REST APIs (ASP.NET Core 8, PostgreSQL) featuring JWT auth for assignments, EF Core seeding, and xUnit testing.

E-Commerce Order Management System [🔗](#),

ASP.NET Core 8 MVC · EF Core · SQL Server · ASP.NET Identity

Implemented a multi-role E-Commerce Order Management System using ASP.NET Core 8, EF Core, SQL Server, Identity, AJAX CRUD, pagination, image uploads, and dashboard analytics.

Shelf — Product & Sale Manager [🔗](#),

Angular 21 · ASP.NET Core 8 Web API · EF Core · SQL Server

Created a full-stack product and sales management system with REST APIs, CRUD operations, image handling, sales tracking, and dashboard analytics.
